Contact person's name clearly visible and legible	Signage	Yes	No	NA
	Principal contractors name displayed (builders name)	Yes	No	NA

Signage	Yes	No	NA
Contact phone number (contactable 24/7)			
Business name and licence number displayed, if applicable			
Is the information legible, so emergency services, regulators or neighbours can			
contact you			
Erect signage to state construction site, authorised access only			

Personal Safety	Yes	No	NA
Provide appropriate personal protective equipment (PPE) such as face masks			
(minimum type P2), to workers with instructions on its correct fitting and use			
Workers to have an effective means of communication if working alone, remotely			
or in an isolated place e.g. mobile phone or 2 way radio(s)			
Monitor outdoor air quality levels via <u>Air Quality Alerts NSW</u>			
Access health information on bushfire smoke via NSW Health			
Advise workers that if they have concerns about their health, they should seek			
medical advice from their doctor			

Emergency Evacuation	Yes	No	NA
Be aware of any bushfires near the proposed work area(s) and advise workers accordingly, including to follow instructions and advice from emergency services and evacuate the area if needed			
Identify a location specific evacuation plan is in place for the site			
Display the emergency evacuation plan in a prominent position at eye level and printed in a legible format			
Be aware of how many people are involved in the work, while under your control			

Environmental	Yes	No	NA
Are there any waterways or bodies of water that could be affected by			
contaminated air borne materials like ash or embers			

## **Advice for Workers**

As a worker, you have obligations under WHS legislation. You should raise your concerns about bushfire smoke with your Employer or WHS Representative as soon as possible.
